FENTEC 24/7 CABINET™

SMART VENDING AND ASSET TRACKING SOLUTION

FENTEC 24/7 CABINET™ is a compact and automated storage for last mile logistics and vending, providing real-time consumption data. No more stock-outs with FENTEC.

FENTEC 24/7 CABINET™ offers easy access and product availability for authorized users on customers' site or in self-service stores. Products are provided just in time at the right place, ensuring smooth workflow.
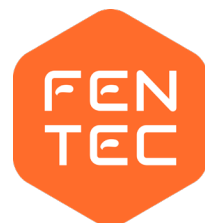

Real-time inventory and stock tracking offers visibility and automated reorders directly to customers' ERP or backend systems. Automated solution reduces operative tasks and product loss, saving costs.

Remote management, software updates and integrations are managed via scalable cloud-based FENTEC 24/7 Device Management.

FENTEC 24/7 CABINET improves service and productivity, freeing up the customer to focus on their own core business.
